

# Blockchain, Bitcoin & Lisk

A brief introduction to the **Blockchain** eco-system and  
deepening on **Lisk**

Andrea F Speziale | Remo Bonfante  
03/04/17 Milano

# **Blockchain & Bitcoin**

# Cos'è la Blockchain?

DECENTRALIZED LEDGER | LIST OF BLOCKS | TAMPER RESISTANT

Centralized ledger network

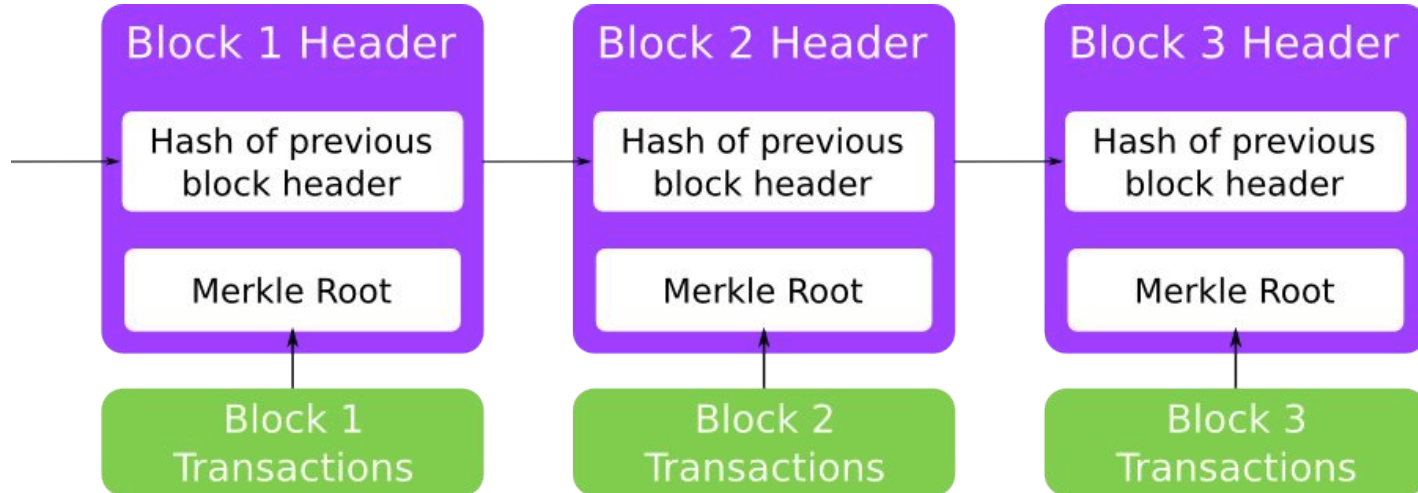

Distributed ledger network

Decentralized ledger network

# What is the Blockchain?

- A list of concatenated blocks
- Blocks are not editable after their insertion in the chain
- Security provided by cryptography

# What is the Blockchain?

- New blocks are appended in the chain with a process called **mining**
- Mining is an expensive process and need a growing amount of resources
- Miners compete for the creation of the next block
- Miners receive a reward for every mined block

# “On top” alla Blockchain?

Platforms | Area | Algo

Moneta elettronica

**POW** Proof of Work

ethereum

Smart contract

**POW** (POS) Proof of Work/..Stake

**STORJ.IO**

Decentralized storage

**POR** Proof of Retrievability

**Lisk!**  
**& DPOS**

# Lisk - intro

22 February - 21 March 2016

---

**ICO** Initial Coin Offering

14,009 **BTC**

about

13,5 millions **€**

(0,13€) ~ **0.28 €** per LSK | ~ **1,1 MLN €** volume | ~ **26.9 MLN €** market cap

# Lisk - intro

## Decentralized App Framework

---

Developed entirely in **Javascript**

**Open Source**

**DPOS**

**API & SideChains & SDK**

# Lisk - js & open source

## 2017 Stack Overflow Developer Survey

---

Most popular language? **Javascript**

**Open Source**

<https://github.com/liskHQ>

# Lisk - nodo, wallet & API

“Simple and Ready to use”

---

VPS **2-4GB RAM** e **2VCPU**

Self-installing node (“bash is lovely”)

Many **APIs** which handle the communication with the node

(e.g “http(s)://ip:8000/api/loader/status/sync”)

# Lisk - nodo, wallet & API

“Super **Easy Blockchain** gateway”

# Lisk - DPOS

## Delegated Proof of Stake

---

network composed by **> 950** nodes **Mainet** | **> 400** nodes **Testnet**

**Delegates** act as creator for new blocks, voted by the community

forging delegates **101**

tot (962) **1091 Mainet** | tot (321) **342 Testnet**

# Lisk - DPOS

## Voting system

---

**1 LSK** x **33** votes for a total of **101**

## Forging & Reward

Delegate Round / **10 sec** per Block

**5 LSK** 1 year | **4 LSK** 2 year | **3 LSK** 3 year | **2 LSK** 4 year | **1 LSK** from 5

# Lisk - attori

## Users

- Merchants
- BlockChain Apps users

## Delegate

- Network guard
- **Lisk** forger

## Developer

- Services developer using API / SDK

# Lisk - development

current **Version** (+ 1 version)

---

**0.7.0** on **Mainnet** | **0.8.0a** on **Testnet**

**2016?**

Forging **Community** | **Foundation** | **</Code Improvements>**
